

# DLG 317

DLG317 is a mid-maturing, white-seeded, proso millet variety with good straw strength and a compact panicle.

Its consistent panicle maturity and superior performance results in a **10-13% higher yield** compared to other commercially available varieties.

## AGRONOMIC FEATURES

Plant Height .....	+/- 36 in.
Days to Maturity.....	85-92 days
Heading Date.....	45-48 days
Seeding Rate .....	Dryland 10-15 lb/ac Irrigated 20-25 lb/ac
Panicle Type .....	Compact
Harvest Methods .....	Swath/Direct Cut
Yield Potential .....	High
Grain Size .....	Large
